James H. Smith, George A. Cook, and Frank M. Lincoln, selection of the town of Willimantic, have called a special meeting of the voters of the town to be held this month. Two special matters of interest are to be acted upon at the meeting.

A vote will decide whether the town will approve the provisions of an act of the General Assembly of 1921, and approved June 1, 1921, which divides the town of Willimantic into four voting districts. The first voting district to be organized is the first ward, to be composed of the second ward, the third district to be composed of the third ward and all that part of the town of Willimantic east of the city limits of Willimantic lying easterly of the Natchaug and betwixt the fourth voting district to be composed of the fourth ward of the city and all that part of the town of Willimantic outside of the limits of the city and west of the Natchaug river.

The act passed by the general assembly stated that the provisions of the act would not take effect until it had been approved at a town meeting called for the purpose.

The voters are also to be asked to appropriate the additional sum of \$10,000 for construction and equipment of the proposed new school building at Willimantic Center. The original appropriation of \$15,000 was found to be only sufficient to cover the cost of construction.

If the voters of the town adopt the four voting district plan the matter of voting at town, state, or national elections will be a much easier task than in the past. Last year during the presidential election when women voted for the first time on all candidates, the vote was nearly double that of former years. The reason for this was that the voters had to go to the polls on a day which was late in the morning of the day following the election when the final vote was counted.

By dividing the town into four voting districts the matter of voting will become much easier than in the past. The voters will be able to go to the polls on a day which is a reasonable time after the polls have closed.

Chief of Police Daniel J. Killebrew has received a communication from George G. Henry, acting marshal for Baltimore, Md. seeking information regarding Harry H. Jones, 35, of that city. Jones, when last heard of by his relatives April 9th, was working at the P. T. Henson Company office at No. 73 Jackson street, this city. It was learned upon investigation that Jones was employed by George H. Harris of Harris & Harris, Inc., and by Norman Clark of Newark, N. J., who had an agency in this city for the company mentioned. For three weeks Jones was with them but later left for Cleveland.
